BRUNELLS PATENT FOUR POINTED BARBED WIRE FENCING AND FENCING STAPLES. The Bars are fastened to the wire (at intervals of 6 in.) in such manner as to prevent the breaking of the same, should it be cut or taken. The Bars are four pointed, and always present a Barb at right angles, which is a great advantage over the 2 Barb Wire and prevents cattle from getting against the fence to bawl, or push it down. Send for a circular, to 53 King corner of Royal street, a copy kept on hand.
